#### MONEY FOR ROADS

OVER ONE MILLION DOLLARS A DAY SPENT NOW.

Mever Beofre Has the Country Been So Aroused in the Interest of Better Elighways.

One million dollars a day is the record that will be 'established throughout the United States as the expenditure for improving and maintaining public roads. Never before in the history of the country has there been such interest in the improvement of highways and with the legislatures of the states appropriating millions of dollars for this purpose, the good road movement has received its greatest impetus since the foundation of the republic.

The money that will be expended on the roads of this country during the next six months will be more than ever before in the same period of time. In 1904, the towl expenditure for the construction and maintenance of roads and bridges in the United States amounted to about \$80,000,000, but the expenditure for this purpose in 1911 will aggregate about \$140,500,000. Exclusive of lay for roads will amount to \$1,000,building season. This includes all issues, State appropriations and pri- reminiscences told. vate subscriptions.

Logan Waller Page, director of the tinue to exist as long as life shall United States office of public roads, last, and when the last old soldier in telling of the resuts of the great has answered the final summons, cumpaign for good roads, "seems at their deeds of valor and devotion to least to be thoroughly aroused to the duty will ever be cherished by the benefits derived from investments in sons and daughters, who will hold improved highways. In California, dear to their hearts the memory of the state has issued \$18,000,000 in their fathers. Donds with which to build a system of state highways. This work will be-'n during the present season. In the state of Connecticut about a2,-250,000 will ze expended this year out of the state treasury for trunk I'ne and state aid roads. Of the \$5,000,000 bond issue recently authorized in Maryland, over \$1,250,-000 will be available this year for the surrounding country will have trunk line and state aid roads. Massachusetts will expend from state revenue over \$1,000,000 for the construction and maintenance of state

"It is expected that at least \$5,00\$-000 will be expended on state aid roads and on trunk line systems in the state of New York, in addition to \$7,000,000 already raised by local taxation. More money is being devoted to road improvement in New York than in any other state in the Union and the percentage of improved roads in that state has increased from 7.9 per cent in 1904 to 60 per cetnt in 1909."

"Over \$2,000,000 is available in North Carolina from bond issues in the various counties for road improvement this year and the legislature has authorized the construction of a road from bond issues in the various counties for road improvement this year and has also authorized the construction of a road from the Atlantic ocean to the Tennessee line, a distance of 425 miles.

"In 1910, thirty counties in Ohio voted \$2,500,000 in bonds to be expended this year. Ohio will also expend about \$500,000 from state revenues for road improvement. In Pennsylvania the state aid appropriation will probably amount to over \$1,000,000 and a \$50,000,000 bond issue is being considered. Various counties in Tennessee will expend \$1,500,000 from bond issues. Over \$1,500,000 will be expended from bond issues in various counties in Texas, while over \$25,000 has been appropriated in the state of Wisconsin, in accordance with the state aid

"The prospect for a complete system of public roads throughout the UnUited States is better now than ever before in the history of the country and a uniformity of recent good road laws gives promise that this country will eventually take its place with FFrance in having the most sensible system of road supervision and maintenance."

Orangeburg county is usually alive to the necessity of good roads. Considering the fact that by far the large number of people who have to depend entirely upon the county and State roads for importing and exporting goods, and that the people in towns and cities also depend upon the farmer's ability to use the roads, it is surprising that good county and State roads were put off so long. Roads have been improving in the last few years, and we should keep

#### Lightning Does Damage.

During a severe electric storm at Darlington Monday evening the country home of Coyt Wilson was struck by lightning, and Mrs. Wilson sustained a severe shock. A piano and sideboard in the house were ruined. Mrs. Wilson's injuries are not of a serious nature. A hail storm also visited a large part of Darlington county Monday afternoon, and growing crops were greatly injured. The plantation of W. B. McCown, near here, probably suffered more than any in this neighborhood. It will be necessary for him to replant a large part of it.

### Needs Rain Badly.

A dispatch from Springfield says rain has fallen in the neighborhood been a rainy season since last July. Athough most cotton is up and growing nicely, the wells have failed and the streams gone dry, something heretofore unknown in this section. Deep wells are being bored, and at a depth of 80 to 90 feet rock is struck, directly under which an unlimited supply of pure, cold water is found.

SHRINERS AND ELKS FOLDERS

A. C. L. Issues Attractive Display of Atlantic City.

The Atlantic Coast Line has issued beautifully illustrated folders of standard form in two colors, advertising the low round trip rates to Rochester on account of the Imperial Council of the Mystic Shrine, July 11, 12 and 13 and of the Grand Lodge of Elks at Atlantic City, N. J., July 10 and 15th.

These folders are replete with information to those contemplating the trip, as they contain the rates, stopover privileges, many pretty halftones and brief write-ups of the many attractions of those two beautiful cities. The round trip rates which are open to the public, from Orangeburg is \$36.60 to Rochester, and \$24 to Atlantic City and the tickets are on sale for each point on July 7, 8 and 9. While the return limit is comparatively short an extension of about a month can be obtained by depositing ticket with agents and upon the payment of \$1.

Every Shriner and Elk should write to Mr. White, the general passenger agent at Wilmington for coples of the folders and they will find much therein to interest them.

An Enjoyable Occasion.
